Spiritual Healing - Information

Spiritual healing is one of the oldest forms of healing known to man, used by many countries, cultures and civilizations for thousands of years.

There are some concerns a few people have about spiritual healing, only because they do not know what is involved, and just how simple and easy it is to receive spiritual healing.

First it is not about religion, we treat animals as well and they do not go to church !

I am not saying anything wrong about going to church or any religion, it is always a personal choice.

I am working on a much higher level than "earthly religion".

So to answer some of the most popular questions and concerns"

Do I have to take my clothes off ?

No, your shoes and a coat should you be wearing one is all you need to take off, casual clothing is best to wear so you are comfy.

Will you touch me ?

Most the treatment is done through the spiritual body, I start with my hands on your shoulders to tune in, then work around the body, with some conditions, or patients experiencing a lot of pain, arthritis for one, I may need to put my hands on a particular area, a back/spine for instance, or where the pain may be, but it would only be with your permission and in accepted areas.

Do I have to sing or pray ?

No, we also treat animals, and they do not pray.

I am not saying there is anything wrong with preying, there is not, but I am in control of your healing treatment.

All you have to do is sit in a chair, listen to some nice relaxing music, and I will do the rest.

Do I need faith ?

No, I have all the faith needed, spiritual healing is not faith healing, again as I say, we also treat animals and they have no faith or religion.

We treat patients of every colour and religion, two legs or four, fur or feather, it simply does not matter at all.

How long will it take ?

A personal appointment can take between 20 minutes and over an hour depending on what I find, an average would be 30 to 40 minutes, a longer time does not mean a patients condition is worse at all, in many occasions it is about removing blockages where a particular illness is trapped and cannot escape.... **It can often be as simple as that**

With distant healing it is completely different, depending on the seriousness of the condition, I have to work on the patient every day many times a day, *(even through the night at times so many hours a week).*

Distant healing, can often be as good, no matter what the illness is, even terminal conditions.

We will discuss this with you in person what I need to work on patients be distant healing.

How many treatments will I need ?

Every patient and condition is different, with many patients I usually recommend starting with weekly treatments over one month, then see how things are then, with really serious conditions I would recommend weekly for 3 months initially.

Deciding factors can be the type of condition, how long a patient had had the condition,

(the longer it has been in the body the longer it may take to remove).

Some patients feel such a big difference after just one treatment it is all they need.

Any treatment I will give you will not effect any treatment or medication you may be receiving. I will never ask you to stop any treatment or medication you may be receiving.

Although usually my patients stop taking any form of pain killers, as they have no pain after treatment.

Often my patients are not receiving any treatment or medication at all, as the medical profession today can do no more for them, but we go on to change their lives no matter what the condition.

I usually ask a lady patient to have a friend with them if it makes them feel more at ease.

As a registered charity, we do not ask a fee, there are suggested donations for our charity on the healing donation link our charity needs suitable donations so we can continue with our work helping all.
